SECTION 4. FIRST AID MEASURES - continued

- Skin Contact:** Itching or burning of the skin. Take off immediately all contaminated clothing. Wash off IMMEDIATELY with plenty of water for at least 15-20 minutes. Get medical attention immediately! Wash clothing separately before reuse. Destroy or thoroughly clean contaminated shoes.
- Inhalation:** Remove victim to fresh air. Administer oxygen or artificial respiration if breathing is affected or stopped. Avoid mouth-to-mouth resuscitation. Seek immediate medical attention.
- Ingestion:** If swallowed, do NOT induce vomiting. Seek immediate medical attention. Give large quantities of water. Never give anything by mouth to an unconscious person.

SECTION 5. FIREFIGHTING MEASURES

- Suitable Extinguishing Media:** As appropriate for surrounding fire.
- Special Firefighting Procedures:** Use self-contained breathing apparatus and full bunker gear in fire areas. Evacuate all unprotected personnel from area. Keep containers cool with water fog to minimize swelling, taking care not to spread flames with water used for cooling.
- Unusual Firefighting Hazards:** None known.

SECTION 6. ACCIDENTAL RELEASE MEASURES

- Personal Precautions:** Evacuate all unprotected personnel from the area.
- Environmental Precautions:** Contain spill if it can be done with minimal risk. Prevent liquid from entering drains, sewers or waterways. Notify proper authorities. Take up with sand or other noncombustible absorbent material and place into containers for later disposal. Large spills: Dike far ahead of liquid spill for later disposal.
- Methods for Cleaning Up:** Small spills: Take up with sand or other noncombustible absorbent material and place into containers for later disposal. Large Spills: Dike far ahead of liquid spill for later disposal.

SECTION 7. HANDLING AND STORAGE

- Handling and Storage:**
- Keep containers tightly closed when not in use.
 - Indoor storage must meet OSHA standards and fire codes.

SECTION 8. PRECAUTIONS TO CONTROL EXPOSURE/PERSONAL PROTECTION

Exposure Limits:

Component Name	CAS #	OSHA PEL	ACGIH TLV
Water	7732-18-5	Not Established	Not Established
Sodium hydroxide	1310-73-2	2 mg/m ³ , Ceiling	2 mg/m ³ , Ceiling
Proprietary Polymeric Dispersant	Trade Secret	Not Established	Not Established

- Engineering Controls:** Adequate local or mechanical to reduce vapor or mist to below the PEL or TLV.
- Monitoring:** Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of the workday.
- Personal Protective Equipment (PPE):**
- Eye Protection:** Safety glasses with side-shields conforming to EN166. Use equipment for eye protection tested and approved under appropriate standards such as NIOSH (US) or EN166 (EU).
- Skin Protection:** Avoid skin contact. Wear gloves impervious to conditions of use. Additional protection may be necessary to prevent skin contact including use of apron, face shield, boots, or full body protection. A safety shower should be located in the work area.

SECTION 8. PRECAUTIONS TO CONTROL EXPOSURE/PERSONAL PROTECTION

Respiratory Protection: If exposure limits are exceeded, NIOSH approved respiratory protection should be worn. A NIOSH approved respirator for organic vapors is generally acceptable for concentrations up to 10 times the PEL. For higher concentrations, unknown concentrations and for oxygen deficient atmospheres, use a NIOSH approved air-supplied respirator. Engineering controls are the preferred means for controlling chemical exposures. Respiratory protection may be needed for non-routine or emergency situations. Respiratory protection must be provided in accordance with OSHA 29 CFR 1910.134.
